

```
import Assign15Pac.Assign15PacClass;
import java.util.*;
class Assign15
{
    public static void main(String[]args)
    {
        Scanner sc = new Scanner(System.in);
        Assign15PacClass a1 = new Assign15PacClass();
        System.out.print("enter your message...: ");
        String s1 = new String(sc.nextLine());
        a1.show_data(s1);
    }
}
```
